Fees to be paid by and account to be established in the name of the: Contractor Owner

Billing Contact Name: _____

Billing Address: _____

Email: _____

Home/Work Ph: _____ Cell Ph: _____ Fax #: _____

Please allow at least one week after application submission to be provided with a quote for new service. While we strive to be as accurate as possible when providing quotes, you will be responsible for the actual costs of installation, which may be higher or lower than the quote, for any costs that are not listed in our standard fee chart at the end of this application such as sewer connection costs or placement of meters larger than 2". Once the quote has been accepted, please allow at least two weeks for service installation. Applications will be processed in the order received; actual wait times may be longer or shorter depending on our current workload. When a contractor applies for water and wastewater service for new construction, the applicable customer deposit will apply. Contractor customer deposits of \$100 will be collected at the time of application. The customer deposit of \$100 will be applied to the final bill upon completion of construction. If this property is subsequently rented and transferred into the name of a tenant, the owner agrees to assume any financial responsibility not met by the tenant.
