QUESTIONS AND ANSWERS

Responses to Questions received are being provided for informational purposes only and will not be considered as part of the Contract Documents.

Q1: In section 3.1 of the RFQ it states that we should identify all major subcontractors greater than 10% of the planned work. Does this mean to provide the scopes of work we will be sub-contracting or identifying the actual subcontractors we will be using? We will not be able to identify the actual subcontractors we will be using until bid day. Please advise?

A1: See Addendum No. 1.

Q2: In section 3.2 of the RFQ it asks us to provide a company overview of all major sub-contractors we will be using. Again we will not know exactly which ones we will be using until bid day. Once the project is advertised we will advertise that we are bidding this project to local and regional trusted subcontractors in the area and ask if they are interested in bidding this project with us. We will then use the low competent bidder on bid day. Please advise?

A2: See Addendum No. 1.
