SAVE WATER DURING YOUR HOLIDAY MEAL PREP WITH THE TIPS IN CAPTION!

Save water during your holiday meal prep with these tips:

- Only run full loads in the washer & dishwasher
- Save the water you use to rinse produce and use it to water any plants
- If handwashing dishes, fill up the sink if possible to do the scrubbing instead of continually running the faucet

If you're preparing your home for guests to stay over, you can also save by

only running full loads of laundry in the washer.

An easy way to see if your family is staying on track with household water use during the holiday season is to check our customer portal! It'll also flag possible leaks, which may qualify you for a leak adjustment if you promptly repair the leak. Click the button below to learn more.
