BILLING CONTACT INFORMATION:		
Fees to be paid by and account to be e	established in the name of the:	Contractor Owner
Billing Contact Name:		
Billing Address:		
Email:		
Home/Work Ph·		Fax #·

Please allow at least one week after application submission to be provided with an estimate for new service. While we strive to be as accurate as possible when providing estimates, you will be responsible for the actual costs of installation, which may be higher or lower than the estimate, for any costs that are not listed in our standard fee chart at the end of this application such as sewer connection costs or placement of meters larger than 2". Once the estimate has been accepted, please allow at least two weeks for service installation. Applications will be processed in the order received; actual wait times may be longer or shorter depending on our current workload. You will be responsible for monthly water and sewer bills upon meter installation, which includes monthly base charges per unit. When a contractor applies for water and wastewater service for new construction, the applicable customer deposit will apply. Contractor customer deposits of \$100 will be collected at the time of application. The customer deposit of \$100 will be applied to the final bill upon completion of construction. If this property is subsequently rented and transferred into the name of a tenant, the owner agrees to assume any financial responsibility not met by the tenant.
